

QUALITY POLICY

Statement by the General Director

The purpose of **EUREKA CONSULTING ENGINEERS S.R.L.** is the permanent development of the organization, the realization of good quality services, the satisfaction of customer requirements, the adaptation of the activity to the current trends of the national and international situation.

To this end we have decided to implement, certify and improve a Quality Management System according to ISO 9001:2015 standard.

The quality management system implemented has as its scope: Engineering and technical consulting activities related to it – Design services of chemical, petrochemical, oil and gas installations.

Our commitment is focused on achieving the following objectives:

- identifying and meeting all the requirements of clients and other stakeholders through quality services;
- continuous improvement of customer relationships, loyalty of current customers and attracting new customers;
- providing services that fully meet the applicable requirements;
- increasing the company's performance and building an image of excellence;
- developing the professional competence of employees to get involved and actively contribute to the continuous improvement of the quality management system;
- preventing risks and exploiting opportunities, in order to improve processes and ensure a high level of quality performance.

As General Director, I take full responsibility for ensuring the resources necessary for the operation of the Quality Management System and to be directly involved by analyzing its efficiency and effectiveness, in promoting continuous improvement measures.

All employees are involved in the continuous implementation and improvement of the quality management system in accordance with the requirements of the SR EN ISO 9001: 2015 standard, its provisions being mandatory for all personnel.

This policy is available to all persons who work for or in the interest of the organization, which is reviewed and reviewed periodically.

General Director,

Giannantonio MORANDINO
